

# Tennessee Labor Market Report

Bill Lee  
Governor

Jeff McCord  
Commissioner

January  
2021

## Highlights

**Pages 1-3** The 2020-2022 Tennessee short-term projections

**Page 4** A directory of articles for every month in 2020

**Page 5** The annual average nonfarm employment rates and the not seasonally adjusted monthly labor force data

**Pages 6-11** Monthly nonfarm employment, long-term graphs of the unemployment and a brief explanation for each major MSA in Tennessee

**Page 12** Monthly nonfarm employment for each small MSA in Tennessee

**Page 13** The monthly consumer price index and wages by industries for production workers

## Tennessee Short-Term Projections, 2020-2022

Tennessee's growth rate from the first quarter of 2020 to the first quarter of 2022 is expected to be positive, but slow to 0.4 percent, compared to the previous two-year projections of 2 percent growth. The continuing pandemic significantly slowed growth in 2020, especially in several industry sectors.

These short-term projections include not only non-farm employment, but also estimates of agricultural employment and the self-employed. The number of self-employed is expected to increase through 2022, as during higher rates of unemployment more workers are operating their own businesses. Total employment during this period is expected to increase from 3,362,260 to 3,376,400, creating new job growth of 14,140.

### Most Rapidly Growing Industries

From the first quarter of 2020 to 2022, the non-farm industry sectors forecast to grow the most rapidly include transportation and warehousing (4.6 percent); construction (2.5 percent); professional, scientific, and technical services (2.5 percent); and information (2.4 percent). Individuals sequestering at home and increasing their online purchasing are expected to continue to boost transportation and warehousing. Renovations of existing homes as well as new residential building will continue to spur construction. Employment in the information sector will continue growth as new technologies continue to develop to aid domestic and worldwide communication.

Industries which lost significant employment during 2020, including manufacturing and arts, entertainment, and recreation, are not expected to recover to the level of employment of the first quarter of 2020 by early 2022. Manufacturing employment<sup>1</sup>, significantly impacted by declines in the transportation equipment manufacturing sector, is expected to be about five percent less. Stimulus spending could improve the outlook.

### Fastest Growing Occupations

The three major occupational groups expected to have the most new jobs are transportation and material moving (7,310), management (3,500), and construction (2,700). Due to the demand for online ordering, top transportation jobs will include heavy and tractor-trailer truck drivers and light truck and delivery drivers, as well as industrial truck and tractor operators working in warehouses. In construction, jobs with the largest number of openings expected include construction laborers, electricians, supervisors, carpenters, helpers, and operating engineers. Although production worker employment overall is expected to decline, there will be significant numbers of openings for metal workers and plastics workers (4,470) and assemblers and fabricators (3,220) due to large numbers of employees exiting these fields.

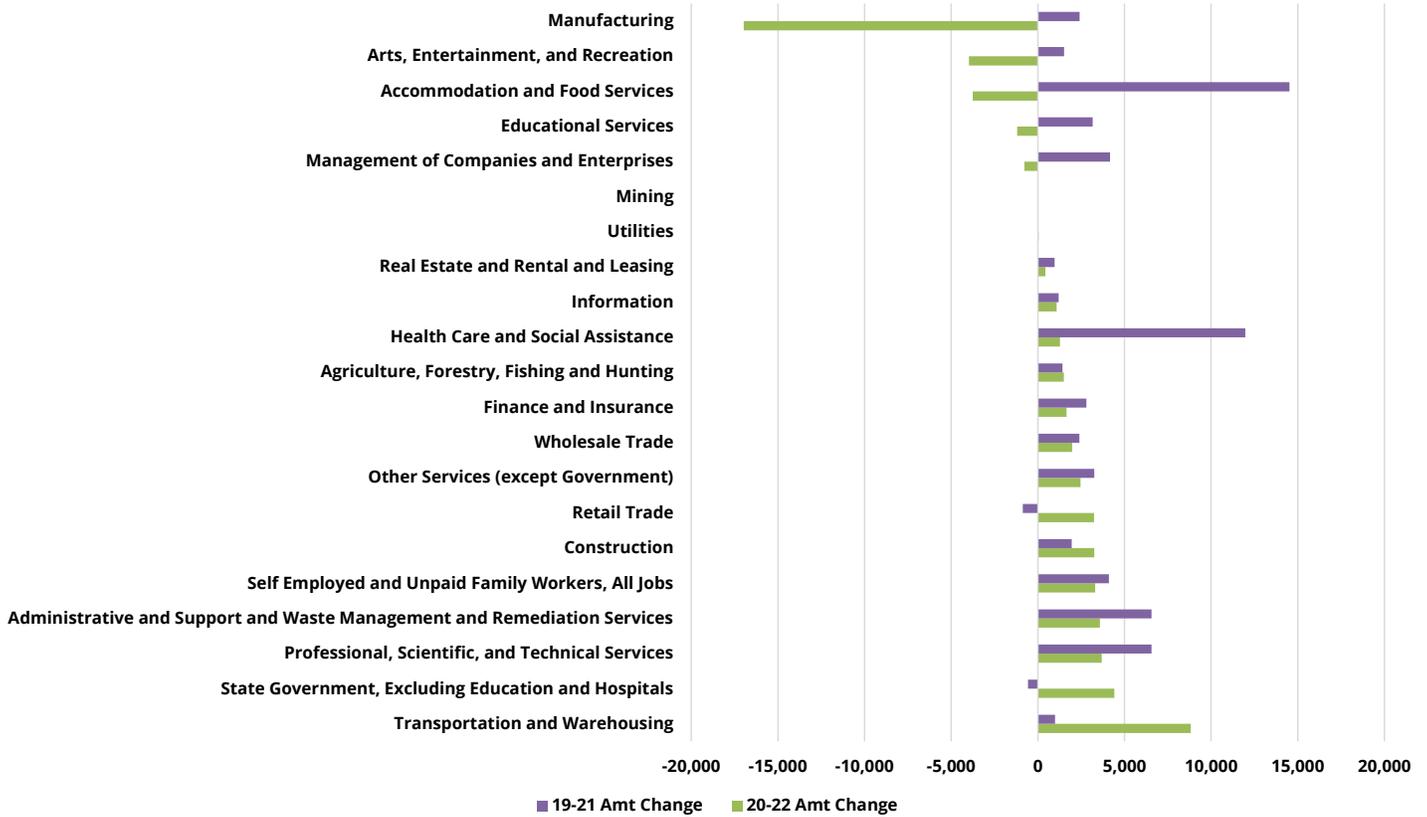

Projected to be among the fastest growing non-farm occupational groups are legal employees (3 percent growth), computer and mathematical employees (2.6 percent) and transportation and material moving employees (2.6 percent). Agricultural employment is also expected to grow by more than two percent. Most occupational openings are due to people leaving the occupation through transfers and exits (separations) rather than growth. In 2019-21, healthcare practitioners and technical occupations were expected to have 28,870 openings. Although the healthcare industry is expected to have a lower growth rate in 2020-22, 25,800 openings are still expected, due to significant numbers of employee separations.

Further information about Tennessee's short-term industry and occupational projections can be found in the labor market information tab at [jobs4tn.gov](http://jobs4tn.gov).

# 2020 Labor Market Report Directory

This is a list of monthly articles that were featured in the 2020 issues of *The Labor Market Report*. The previous issues of *The Labor Market Report* are available on our department's Website at <https://www.tn.gov/workforce/general-resources/major-publications0/major-publications-redirect/public-reports-redirect/labor-market-reports.html>.

- **JANUARY**

Page 1 includes information about **the 2019 Labor Surplus Areas in Tennessee**.  
Page 2 is **The 2019 LMR Directory** of last year's articles in *The Labor Market Report*.

- **FEBRUARY**

**Essential Industries in Tennessee:** This article includes information on essential industries in Tennessee from the 2019 Occupational Employment Statistics (OES) survey.

- **MARCH**

**Unemployment Insurance & Weekly Claims:** This article includes information on Unemployment Insurance (UI). It explains who qualifies, the new rules that were passed in the CARES Act, and the number of initial claims over the year for both the United States and Tennessee.

- **APRIL**

This article gives information about **Labor Force & Nonfarm Employment, 2015-2019**. It shows nonfarm employment by industry and the labor force, employment, and unemployment rate in Tennessee cities.

- **MAY**

This article is **An Overview of Economic Recessions** in the United States since World War II. It also discusses the current COVID-19 economic recession.

- **JUNE**

This article explains **Per Capita Income and Population by County**. The population and income data encompasses 2017 to 2018.

- **JULY**

This article discusses the county **Gross Domestic Product** in Tennessee from 2015 to 2019. The article also explains what gross domestic product is and how it is used.

- **AUGUST**

**Goods-Producing & Service-Providing Employment:** This article is about the employment trends of the goods-producing and service-providing industry sectors in both Tennessee and the United States from 1990 to 2019.

- **SEPTEMBER**

This article discusses the **COVID-19's Effect on the Tennessee Economy, March-June 2020**. It includes the Tennessee Demand Occupations by claims filed as percent of 2020 employment.

- **OCTOBER**

This article discusses the **Industries and Occupations Adding Jobs During the COVID-19 Pandemic in Tennessee**.

- **NOVEMBER**

This article talks about **Workplace Injuries and Illnesses** and shows a comparison of injury and illness rates amongst the states for 2019.

- **DECEMBER**

This article looks at the **Effects of the COVID-19 Recession by Gender**. It discusses how this recession has been the first recession to have women more affected by job loss than men.

## Nonfarm Employment & Labor Workforce Narrative

Total nonfarm employment decreased by 117,000 jobs from January 2020 to January 2021. There were decreases in leisure & hospitality (down 57,500 jobs), which includes decreases of 37,100 jobs in food services & drinking places; educational & health services (down 18,600 jobs), which includes decreases of 12,600 jobs in health care & social assistance; government (down 15,600 jobs), which includes decreases of 12,000 jobs in local government; manufacturing (down 9,000 jobs), which includes decreases of 6,300 jobs in durable goods manufacturing.

These decreases were partially offset by increases in transportation & warehousing (up 8,100 jobs); professional/scientific/technical services (up 4,300 jobs); food & beverage stores (up 2,500 jobs); building material/garden equipment/supplies (up 2,400 jobs).

During the past month, nonfarm employment decreased by 64,500 jobs. There were decreases in professional & business services (down 15,000), which include decreases of 12,700 jobs in administrative/support/waste management; trade/transportation/warehousing (down 14,600 jobs), which includes decreases of 7,900 jobs in retail trade; government (down 13,400 jobs), which includes decreases of 6,600 jobs in state government educational services.

These decreases were partially offset by increases in finance & insurance (up 300 jobs); miscellaneous store retailers and transportation equipment manufacturing (both up 200 jobs).

Tennessee's seasonally adjusted estimated unemployment rate for January 2021 was 5.1 percent, down from the revised December 2020 rate of 5.6 percent. The United States unemployment rate for January 2021 was 6.3 percent, down from the revised December 2020 rate of 6.7 percent. In January 2020, the U.S. seasonally adjusted rate was 3.5 percent while the state rate was 3.7 percent.

The not seasonally adjusted unemployment rate decreased in 78 counties, increased in 10 counties, and remained the same in 7 counties. Williamson County had the lowest rate at 3.2 percent, down from the revised December rate of 3.8 percent. The highest rate was Cocke County at 8.5 percent, up from the revised unemployment rate of 6.5 percent in December.

The data from all the nonfarm employment estimates tables include all full- and part-time nonfarm wage and salary employees who worked during or received pay for any part of the pay period that includes the 12th of the month. This is a count of jobs by place of work. Agricultural workers, proprietors, self-employed persons, workers in private households, and unpaid family workers are excluded. These numbers may not add due
